SUBJECT INDEX

A

Aberrant subclavian arteries
Acquired diseases of aberrant subclavian arteries, Mulligan S, Nath PH, Keller FS, Zorn G, Hickey N, 4(2):76
Angiography
Pulmonary angiography in pulmonary embolic disease, Newman GE, 4(4):28
Aortic disorders
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins, CB, 4(2):34
Post–cardiac surgery chest radiograph: A clinically integrated approach, Henry DA, Jolles H, Berberich JJ, Schmelzer V, 4(3):20
Asbestosis
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Atelectasis
Chest-wall collapse as a complication of atelectasis, Gurney JW, Schroeder BA, 4(2):87

B

Blood circulation
Fleischner Lecture: Computed tomography of diffuse pulmonary disease, Genereux GP, 4(3):50
Pulmonary vascularity in pediatric heart disease, Swischuk LE, Stansberry SD, 4(3):1
Ultrafast computed tomography techniques in cardiac disease, Flicker S, Naidech HJ, Altin RS, Eldredge WJ, Carr KF, 4(3):42
Brachial plexus disorders
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Bucrylate pulmonary embolization
Inadvertent bucrylate pulmonary embolization: A case report, Takasugi JE, Shaw C, 4(4):71

C

Calcification
Case of intralobar pulmonary sequestration with calcification and elevated serum values of carcinoembryonic antigen and carbohydrate antigen 19-9, Uyama T, Monden Y, Harada K, Tsuzuki H, Hashioka K, Nobuhara K, Kimura S, Taniki T, 4(4):74
Cancer
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Diaphragmatic and paradiaphragmatic tumors and pseudotumors, Schwartz EE, Wechsler RJ, 4(1):19
Magnetic resonance imaging of cardiac sarcomas, Watanabe AT, Teitelbaum GP, Henderson RW, Bradley WG Jr, 4(2):90
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Role of magnetic resonance imaging in the assessment of patients with lung cancer: A comparison with computed tomography, Webb WR, 4(2):65
Cardiac gating
Magnetic resonance imaging of cardiac and paracardiac masses, Brown JJ, Barakos JA, Higgins CB, 4(2):58
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins CB, 4(2):34
Chest-wall disorders
Chest-wall collapse as a complication of atelectasis, Gurney JW, Schroeder BA, 4(2):87
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Coil embolization
Coil embolization in the treatment of pulmonary arteriovenous malformations, Hartnell GG, Allison DJ, 4(1):81
Computed tomography (CT)
Computed tomographic diagnosis of left innominate vein aneurysm mimicking an anterior mediastinal mass on plain films: A case report, Marmolya G, Yagan R, 4(4):77
Computed tomography and magnetic resonance imaging in the diagnosis of pulmonary thromboembolic disease, Shah HR, Buckner CB, Purnell GL, Walker CW, 4(4):58
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Diaphragmatic and paradiaphragmatic tumors and pseudotumors, Schwartz EE, Wechsler RJ, 4(1):19
Fleischner Lecture: Computed tomography of diffuse pulmonary disease, Genereux GP, 4(3):50
Imaging the diaphragm and its disorders, Tarver RD, Conces DJ Jr, Cory DA, Vix VA, 4(1):1
Pleural effusions: Pathogenesis, radiologic evaluation, and therapy, Henschke CI, Davis SD, Romano PM, Yankelevitz DF, 4(1):49
Radiology of right heart dysfunction: Chest roentgenogram and computed tomography, Stanford W, Galvin JR, 4(3):7
Role of magnetic resonance imaging in the assessment of patients with lung cancer: A comparison with computed tomography, Webb WR, 4(2):65
Ultrafast computed tomography techniques in cardiac disease, Flicker S, Naidech HJ, Altin RS, Eldredge WJ, Carr KF, 4(3):42
Coronary-artery bypass
Post–cardiac surgery chest radiograph: A clinically integrated approach, Henry DA, Jolles H, Berberich JJ, Schmelzer V, 4(3):20
CT
See **Computed tomography**

D

Deep vein thrombosis
Clinical and noninvasive assessment of venous disease as related to pulmonary embolism, Barnes RW, Nix ML, 4(4):8
Deep vein thrombosis: A perspective on anatomy and venographic analysis, Harmon B, 4(4):15
Deep venous thrombosis and pulmonary emboli:

Etiology, medical treatment, and prophylaxis, Coffman JD, 4(4):4
Diaphragm
Diaphragmatic and paradiaphragmatic tumors and pseudotumors, Schwartz EE, Wechsler RJ, 4(1):19
Imaging the diaphragm and its disorders, Tarver RD, Conces DJ Jr, Cory DA, Vix VA, 4(1):1
Digital subtraction angiography
Pulmonary angiography in pulmonary embolic disease, Newman GE, 4(4):28

E

Embolization technique
Coil embolization in the treatment of pulmonary arteriovenous malformations, Hartnell GG, Allison DJ, 4(1):81
Emphysema
Interstitial emphysema in adults: Recognition and prognostic implications, Unger JM, England DM, Bogust GA, 4(1):86
Esophageal disorders
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19

F

Fleischner Lecture
Fleischner Lecture: Computed tomography of diffuse pulmonary disease, Genereux GP, 4(3):50
Fluoroscopy
Imaging the diaphragm and its disorders, Tarver RD, Conces DJ Jr, Cory DA, Vix VA, 4(1):1

H

Heart disorders
Magnetic resonance imaging of cardiac sarcomas, Watanabe AT, Teitelbaum GP, Henderson RW, Bradley WG Jr, 4(2):90
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Post–cardiac surgery chest radiograph: A clinically integrated approach, Henry DA, Jolles H, Berberich JJ, Schmelzer V, 4(3):20
Pulmonary vascularity in pediatric heart disease, Swischuk LE, Stansberry SD, 4(3):1
Radiology of right heart dysfunction: Chest roentgenogram and computed tomography, Stanford W, Galvin JR, 4(3):7
Ultrafast computed tomography techniques in cardiac disease, Flicker S, Naidech HJ, Altin RS, Eldredge WJ, Carr KF, 4(3):42
High-resolution computed tomography
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Hilar disorders
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1

I

Infection
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Innominate vein aneurysm
Computed tomographic diagnosis of left innominate vein aneurysm mimicking an anterior mediastinal mass on plain films: A case report, Marmolya G, Yagan R, 4(4):77
Inorganic dust diseases
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Misconceptions regarding the pathogenicity of silicas and silicates, Feigin DS, 4(1):68
Intralobar pulmonary sequestration
Case of intralobar pulmonary sequestration with calcification and elevated serum values of carcinoembryonic antigen and carbohydrate antigen 19-9, Uyama T, Monden Y, Harada K, Tsuzuki H, Hashioka K, Nobuhara K, Kimura S, Taniki T, 4(4):74

L

Lung disorders
Case of intralobar pulmonary sequestration with calcification and elevated serum values of carcinoembryonic antigen and carbohydrate antigen 19-9, Uyama T, Monden Y, Harada K, Tsuzuki H, Hashioka K, Nobuhara K, Kimura S, Taniki T, 4(4):74
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Fleischner Lecture: Computed tomography of diffuse pulmonary disease, Genereux GP, 4(3):50
Interstitial emphysema in adults: Recognition and prognostic implications, Unger JM, England DM, Bogust GA, 4(1):86
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Misconceptions regarding the pathogenicity of silicas and silicates, Feigin DS, 4(1):68
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Role of magnetic resonance imaging in the assessment of patients with lung cancer: A comparison with computed tomography, Webb WR, 4(2):65
See also **Pulmonary embolism**

M

Magnetic resonance imaging (MRI)
Computed tomography and magnetic resonance imaging in the diagnosis of pulmonary thromboembolic disease, Shah HR, Buckner CB, Purnell GL, Walker CW, 4(4):58
Cross-sectional imaging of the chest wall, Wechsler RJ, Steiner RM, 4(1):29
Magnetic resonance imaging of cardiac and paracardiac masses, Brown JJ, Barakos JA, Higgins CB, 4(2):58
Magnetic resonance imaging of cardiac sarcomas, Watanabe AT, Teitelbaum GP, Henderson RW, Bradley WG Jr, 4(2):90
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins CB, 4(2):34
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Pleural effusions: Pathogenesis, radiologic evaluation, and therapy, Henschke CI, Davis SD, Romano PM, Yankelevitz DF, 4(1):49
Role of magnetic resonance imaging in the assessment of patients with lung cancer: A comparison with computed tomography, Webb WR, 4(2):65
Superior sulcus tumors: The role of imaging, Takasugi JE, Rapoport S, Shaw C, 4(1):41
Mediastinal disorders
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Monoclonal antibodies
Monoclonal antibodies and thromboembolism, Grossman ZD, 4(4):62
MRI
See **Magnetic resonance imaging**

N

Neodymium-YAG laser
Chest radiograph after resection of pulmonary nodules with a neodymium-YAG laser, Holbert BL, Holbert JM, Libshitz HI, 4(2):82

P

Paradiaphragmatic tumor
Diaphragmatic and paradiaphragmatic tumors and pseudotumors, Schwartz EE, Wechsler RJ, 4(1):19
Parenchymal disorders
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Pediatric patients
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Pulmonary vascularity in pediatric heart disease, Swischuk LE, Stansberry SD, 4(3):1
Pleural disorders
Computed tomography in the diagnosis of asbestos-related thoracic disease, Gamsu G, Aberle DR, Lynch D, 4(1):61
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Pleural effusions: Pathogenesis, radiologic evaluation, and therapy, Henschke CI, Davis SD, Romano PM, Yankelevitz DF, 4(1):49
Pulmonary embolism: Chest radiographic abnormalities, Buckner CB, Walker CW, Purnell GL, 4(4):23
Positive contrast venography
Deep vein thrombosis: A perspective on anatomy and venographic analysis, Harmon B, 4(4):15
Postoperative evaluation
Chest radiograph after resection of pulmonary nodules with a neodymium-YAG laser, Holbert BL, Holbert JM, Libshitz HI, 4(2):82
Post–cardiac surgery chest radiograph: A clinically integrated approach, Henry DA, Jolles H, Berberich JJ, Schmelzer V, 4(3):20
Pseudotumors
Diaphragmatic and paradiaphragmatic tumors and pseudotumors, Schwartz EE, Wechsler RJ, 4(1):19
Pulmonary arteriovenous malformations
Coil embolization in the treatment of pulmonary arteriovenous malformations, Hartnell GG, Allison DJ, 4(1):81

Pulmonary artery disorders
Coil embolization in the treatment of pulmonary arteriovenous malformations, Hartnell GG, Allison DJ, 4(1):81
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins CB, 4(2):34
Pulmonary circulation
See **Blood circulation**
Pulmonary embolism
Clinical and noninvasive assessment of venous disease as related to pulmonary embolism, Barnes RW, Nix ML, 4(4):8
Computed tomography and magnetic resonance imaging in the diagnosis of pulmonary thromboembolic disease, Shah HR, Buckner CB, Purnell GL, Walker CW, 4(4):58
Deep vein thrombosis: A perspective on anatomy and venographic analysis, Harmon B, 4(4):15
Deep venous thrombosis and pulmonary emboli: Etiology, medical treatment, and prophylaxis, Coffman JD, 4(4):4
Inadvertent bucrylate pulmonary embolization: A case report, Takasugi JE, Shaw C, 4(4):71
Interventions in pulmonary embolism, McCowan TC, Eidt JF, Ferris EJ, 4(4):67
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins CB, 4(2):34
Monoclonal antibodies and thromboembolism, Grossman ZD, 4(4):62
Pulmonary angiography in pulmonary embolic disease, Newman GE, 4(4):28
Pulmonary embolism: An internist's perspective, Nicholson D: 4(4):20
Pulmonary embolism: Chest radiographic abnormalities, Buckner CB, Walker CW, Purnell GL, 4(4):23
Pulmonary nuclear medicine evaluation of thromboembolic disease, Hanson MW, Coleman RE, 4(4):40
Pulmonary thromboembolism: A historical perspective, Newman GE, 4(4):1
Pulmonary infarction
Pulmonary embolism: Chest radiographic abnormalities, Buckner CB, Walker CW, Purnell GL, 4(4):23
Pulmonary sequestration
Case of intralobar pulmonary sequestration with calcification and elevated serum values of carcinoembryonic antigen and carbohydrate antigen 19-9, Uyama T, Monden Y, Harada K, Tsuzuki H, Hashioka K, Nobuhara K, Kimura S, Taniki T, 4(4):74

R

Radionuclide studies
Monoclonal antibodies and thromboembolism, Grossman ZD, 4(4):62
Pulmonary nuclear medicine evaluation of thromboembolic disease, Hanson MW, Coleman RE, 4(4):40
Right heart disorders
Radiology of right heart dysfunction: Chest roentgenogram and computed tomography, Stanford W, Galvin JR, 4(3):7

S

Silicate exposure
Misconceptions regarding the pathogenicity of silicas and silicates, Feigin DS, 4(1):68
Sonography
Pleural effusions: Pathogenesis, radiologic evaluation, and therapy, Henschke CI, Davis SD, Romano PM, Yankelevitz DF, 4(1):49
Subclavian arteries
Acquired diseases of aberrant subclavian arteries, Mulligan S, Nath PH, Keller FS, Zorn G, Hickey N, 4(2):76
Superior sulcus tumors
Superior sulcus tumors: The role of imaging, Takasugi JE, Rapoport S, Shaw C, 4(1):41

T

Talc exposure
Misconceptions regarding the pathogenicity of silicas and silicates, Feigin DS, 4(1):68
Thromboembolism
See **Pulmonary embolism**

U

Ultrafast computed tomography
Ultrafast computed tomography techniques in cardiac disease, Flicker S, Naidech HJ, Altin RS, Eldredge WJ, Carr KF, 4(3):42

V

Vascular disorders
Acquired diseases of aberrant subclavian arteries, Mulligan S, Nath PH, Keller FS, Zorn G, Hickey N, 4(2):76
Coil embolization in the treatment of pulmonary arteriovenous malformations, Hartnell GG, Allison DJ, 4(1):81
Computed tomographic diagnosis of left innominate vein aneurysm mimicking an anterior mediastinal mass on plain films: A case report, Marmolya G, Yagan R, 4(4):77
Fleischner Lecture: Computed tomography of diffuse pulmonary disease, Genereux GP, 4(3):50
Magnetic resonance imaging of the thorax, Swensen SJ, Ehman RL, Brown LR, 4(2):19
Magnetic resonance imaging of the thorax: Techniques, current applications, and future directions, Spritzer C, Gamsu G, Sostman HD, 4(2):1
Magnetic resonance imaging of thoracic vascular disease, White RD, Higgins CB, 4(2):34
Pediatric thoracic applications of magnetic resonance imaging, Bisset GS III, 4(2):51
Post–cardiac surgery chest radiograph: Clinically integrated approach, Henry DA, Jolles H, Berberich JJ, Schmelzer V, 4(3):20
Ultrafast computed tomography techniques in cardiac disease, Flicker S, Naidech HJ, Altin RS, Eldredge WJ, Carr KF, 4(3):42
See also **Pulmonary embolism**
Venography
Deep vein thrombosis: A perspective on anatomy and venographic analysis, Harmon B, 4(4):15
Ventilation-perfusion (V/Q) imaging
Pulmonary angiography in pulmonary embolic disease, Newman GE, 4(4):28
Pulmonary embolism: Chest radiographic abnormalities, Buckner CB, Walker CW, Purnell GL, 4(4):23
Pulmonary nuclear medicine evaluation of thromboembolic disease, Hanson MW, Coleman RE, 4(4):40
